

ATTENTION MEMBERS!

YOU MAY BE ELIGIBLE FOR SALES TAX EXEMPTION - READ BELOW

The Minnesota Legislature passed a law which provides that electricity sold for residential use to customers who are metered and billed as residential users and who use electricity for their primary (over 50%) source of residential heat is exempt from the sales tax for the billing months of November, December, January, February, March, and April.

The principle qualifications for this sales tax exemption are:

- (1) Electricity must be delivered to an occupied dwelling such as a farmstead house, a house in the country, an apartment with four or less units. The electricity need not be used for dwelling only--all electricity used through the SAME meter, whether for heating purposes or not, is exempt for the 6 month period.

- (2) Electricity must be the primary source of heat. Primary in this instance means over 50% of the heating requirements of your residence. The heat must be furnished by a permanently installed heater or heaters (not portable).

IF YOU QUALIFY UNDER THE TERMS OUTLINED ABOVE, it will be necessary to fill out, sign, and return to us the Certificate below before we can recognize your exemption from sales provided under law. Thank you.

ELECTRIC HEATING SALES TAX EXEMPTION CERTIFICATE	
To: Minn. Valley Co-op Light & Power Ass'n. P. O. Box 248 Montevideo, MN 56265	
Acct. No. _____
